A Few Things to Understand Before we Begin...

- Yin and yang
- Presentation flow
- Goal of starting VFO Services in 2025
- Feedback loop
- Collective build

At Elite Resource Team & VFO Services
we talk about **Collaboration & Teamwork**

As well as...

Creating & Achieving a

"WIN-WIN-WIN-WIN"

Across the 4 Stakeholders

The 4 Stakeholders:

Members

- Want to offer **proactive & holistic services / widen their client offering** via VFO

The 4 Stakeholders:

Members

- Want to offer **proactive & holistic services / widen their client offering** via VFO

Clients (of Members)

- Want a **"joined-up" proactive service** - rather than advisory services in silos

The 4 Stakeholders:

Members

- Want to offer **proactive & holistic services / widen their client offering** via VFO

Clients (of Members)

- Want a **"joined-up" proactive service** - rather than advisory services in silos

VFO Specialists

- Want to gain **access to new clients and new work**

The 4 Stakeholders:

Members

Clients (of Members)

- Want a **"joined-up" proactive service** - rather than advisory services in silos

VFO Specialists

- Want to gain **access to new clients** and **new work**

ERT/VFO Services

- Want to offer a **single tool** that can satisfy all of the above
 - Help the team **track progress** and **communicate** easily with stakeholders

What is driving
the need for **change?**

A Combination of 2 Things Driving Change:

1) Outdated Current Approach

Old Technology i.e. Proactive Planning Platform, Google Sheets, etc.

- Proactive Planning Platform was “clunky”
- Google sheets was becoming more and more unwieldy as we grew

■ New Member Services

- VFO Fast Track & Partnership Fast Track

■ Different Types & Complexity of Revenue Tracking

- Revenue Sharing
- Money Mapping
 - VFO Revenues / Planning Fees
 - Introducer Commissions (Advisors and Accountants)

A Combination of 2 Things Driving Change:

1) Outdated Current Approach

Old Technology i.e. Proactive Planning Platform, Google Sheets, etc.

2) Automation & AI Opportunity

The world is changing rapidly:

- Driving greater **efficiency & cost savings**
- Driving better **user experience for all stakeholders**

A Combination of 2 Things Driving Change:

- 1) Outdated Current Approach
- 2) Automation & AI Opportunity

It did not make sense to bolt Automation & AI onto the *"current mess"*

We wanted to **design** a platform where Automation & AI can flourish

We wanted a **structured** environment

- Works for all the stakeholders
- Easy to make future additions / changes
 - **Dynamic & agile VFO Platform**

What is the Plan?

Client Perspective

Client Plan

Working with Clients **Client is now a VFO Portal “Member”**

The Client has now become a **VFO Portal Member** with own personal access

- In this case via **VFO Services** and the **Member**
 - Membership for their contractual period of 12 months (based on their Core/Lite decision)

They are allocated a **VFO Services Membership #** (connected to the Member)

The Client has now become a **VFO Portal Member** with own personal access

- In this case via **VFO Services** and the **Member**

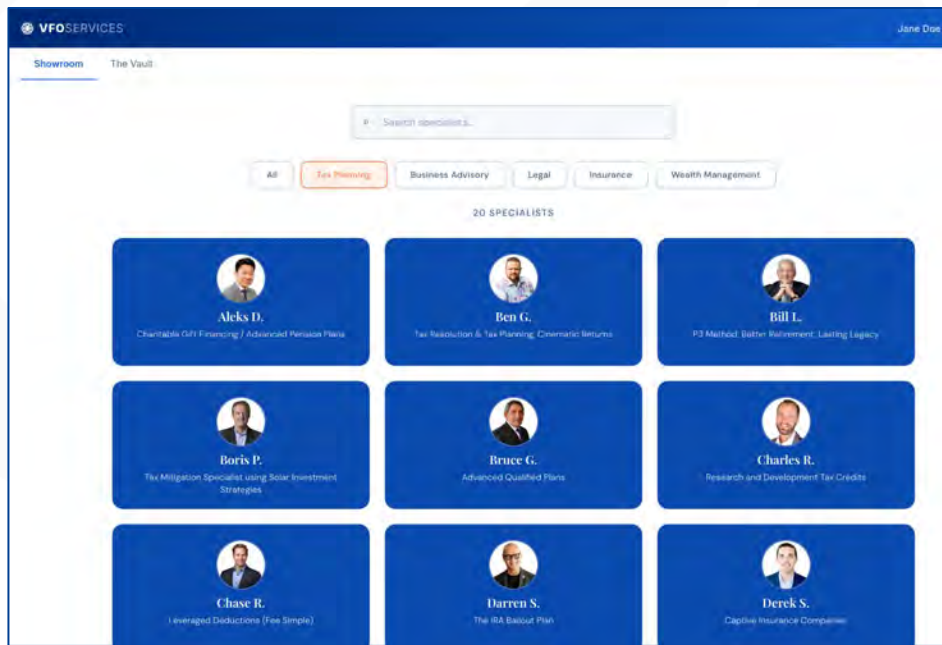

They are allocated a **VFO Services Membership #** (connected to the Member)

The principle benefits of the VFO Portal for the Client are:

- **Access to VFO Showroom**
- **Access to Client Vault**

Client Plan

Working with Clients **Client is now a VFO Portal "Member"**

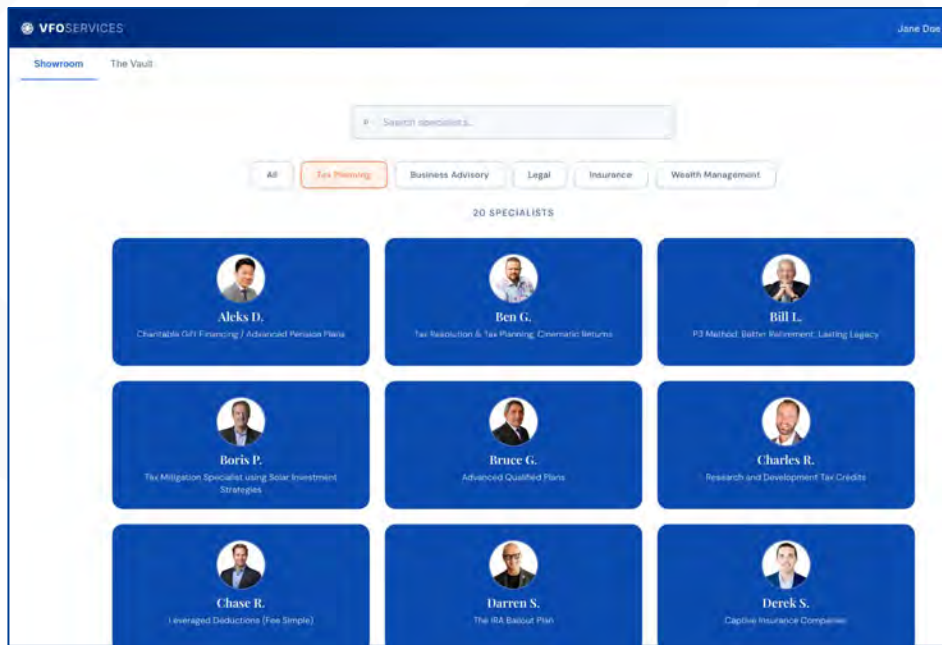

Access to VFO Showroom

- Access to Specialists via Member / VFO Liaison
 - Any further client needs through the year
 - **User Experience** is sustained

Client Plan

Working with Clients **Client is now a VFO Portal “Member”**

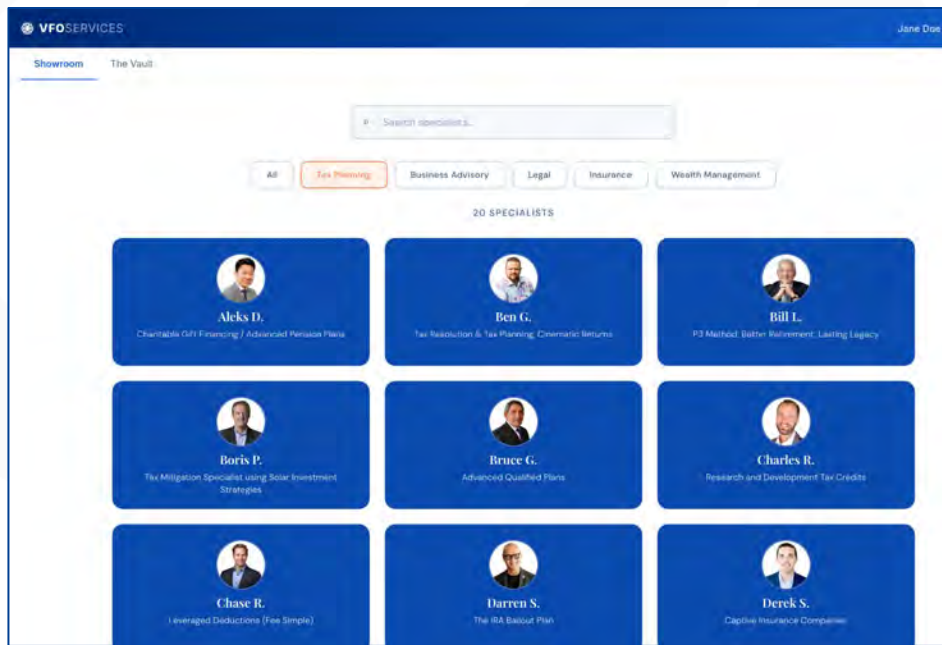

Access to VFO Showroom

Member (whose client it is) controls on their VFO Portal which **VFO Specialists seen by Client** in any particular Client VFO Showroom

Member **enables / disables VFO Specialists** - according to preference. Decisions cascade through to all clients of that Member

Client Plan

Working with Clients **Client is now a VFO Portal “Member”**

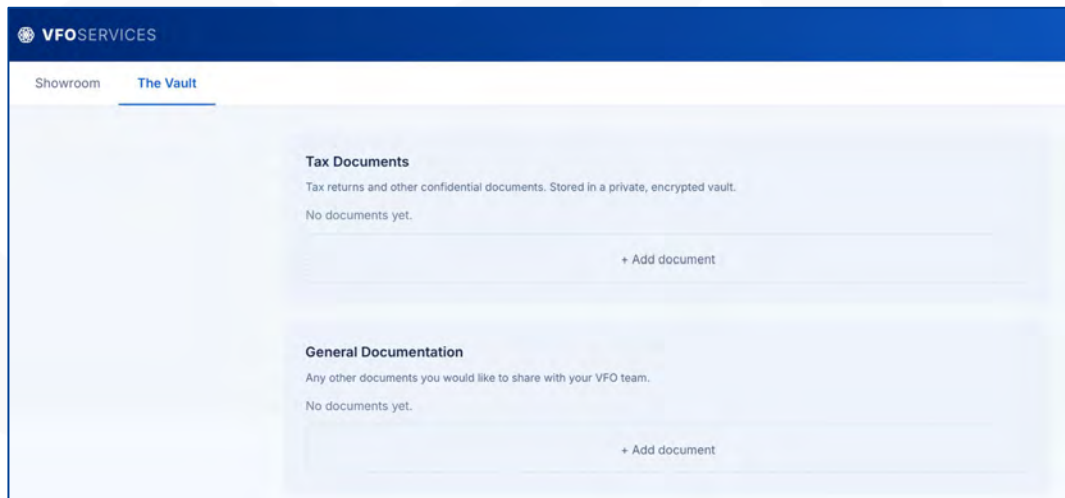

Access to Client Vault

- Secure transfer of personal information to stakeholders
 - Tax Returns
 - Any confidential data transfer

Encrypted with AES-256, the bank-grade standard used by financial institutions and government

- Allows seamless transfer to selected VFO Specialists or PPT Members (never leaving the Portal)

Client Plan

Working with Clients **Client is now a VFO Portal “Member”**

Access to Client Vault

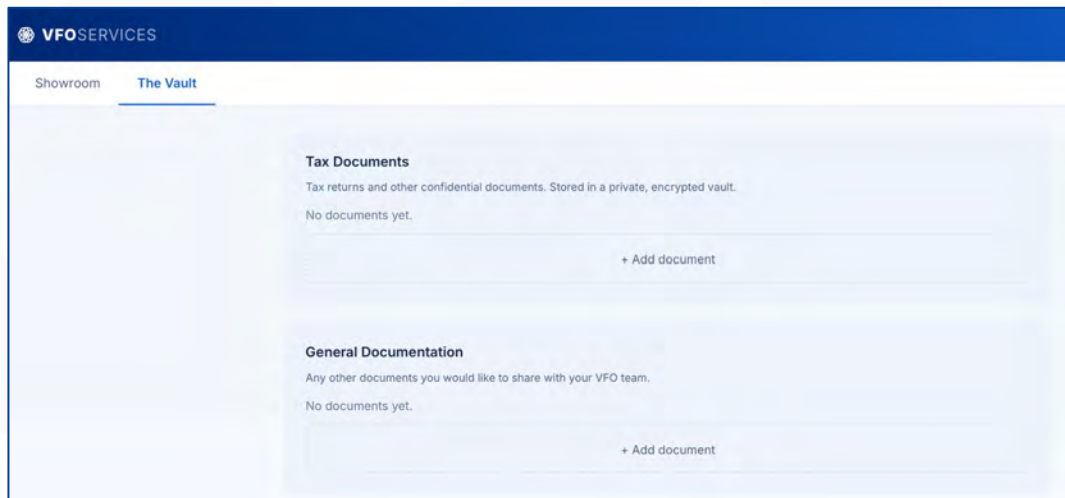

- Secure transfer of personal information to stakeholders
 - Tax Returns
 - Any confidential data transfer

We anticipate that the vault will bring long-term **“Client stickiness”** benefits particularly for the Member

- Client can use the VFO Portal to **store all their private financial information** in separate areas of the vault
 - Portal used to **“read”** and **identify planning opportunities**
 - **Sharing the files** in the vault with children / other professional
 - Organized by the 5 areas of VFO (with applicable sub-folders)

The screenshot displays the VFO Specialist Plan interface. At the top, under the 'CLIENTS' section, is a card for 'Test Client' with ID '59524-001', associated with 'VFO Holistic Planning' and 'Member: Test Member'. Below this is a navigation bar with tabs: 'Profile' (selected), 'MAP 1', 'Regular Priorities', 'Tax Priorities', and 'PIP Meetings'. The main content area is titled 'SENSITIVE DOCUMENTS (tax returns)' and includes a note: 'Stored in a private vault. You can see what has been uploaded, but only authorized tax staff can open or share these documents.' A document entry 'Wolves_Website.png' (16 KB) is listed with a lock icon and the status 'locked'. An orange callout box with an arrow points to the 'locked' status, stating 'Not authorized Vault is "locked"'.

Step 2 - ERT/VFOS Access Document (via Client Vault)

The screenshot displays the VFO Specialist Plan interface. At the top, under the 'CLIENTS' section, the 'Test Client' is listed with ID '59524-001' and 'VFO Holistic Planning' as the member. Below this, a navigation bar includes 'Profile' (selected), 'MAP 1', 'Regular Priorities', 'Tax Priorities', and 'PIP Meetings'. The main content area is titled 'SENSITIVE DOCUMENTS (tax returns)' and states: 'Stored in a private vault. You have access to view, add, remove and share these documents.' A document named 'Wolves_Website.png' (16 KB) is shown with 'View', 'Share', and 'Delete' buttons. A blue callout box with an arrow points to the 'View' button, containing the text 'Authorized not "locked"'.

Step 3 - Share with VFO Specialist

The screenshot displays a web interface for managing sensitive documents. At the top, it says "SENSITIVE DOCUMENTS (tax returns)" and "Stored in a private vault. You have access to view, add, remove and share these documents." Below this, there are two document entries. The first entry is "Wolves_Website.png" (16 KB) with "View", "Share", and "Delete" buttons. The second entry is "4 KB" (likely a placeholder for a name) with "View", "Share", and "Delete" buttons. A blue callout box with the text "Choose VFO Specialist" has an arrow pointing to a dropdown menu. The dropdown menu is open, showing a list of specialists: Aleks Dyo, Ami Kassar, Andrew Lassise, Andy Ruhland, Ashley Lupiani, and Ben Golden. The first option, "+ Share with a specialist...", is checked.
