WHAT DOES GETTING IT RIGHT LOOK LIKE?

WHY DO THIS?

THREE REASONS TO BECOME A BUSINESS SPECIALIST

- If Invested with ERT, Take Advantage
- Timing Is Amazing: Greatest Wealth Transfer
- Attract & Retain More Business Owners (Increase AUM + holistic planning)

NOT ALL ADVISORS ARE EQUAL

Industry experts believe up to 70% of business owners change wealth managers at liquidity event

Reason: Feel they need a specialist for business owners!

Portfolio X 70% = Amount At Risk (Calculate Lost Commissions)

THE FALSE TRADEOFF OWNERS FACE

THE FREEDOM FLYWHEEL™

HOW THE FLYWHEEL COMPOUNDS

- Reduced personal noise improves decision quality and leadership effectiveness
- Better decisions and leaders strengthen the business
- A stronger business creates more financial options
- More financial options reduce personal pressure
- The cycle continues to compound on itself

THE PROBLEM: COMPETING ADVICE IN SILOS

MOST ADVISOR CONVERSATIONS FOCUS ON THE PAST

"How was last year? Last quarter? How did the numbers end up?"

THE CPA SAYS

"Accelerate expenses to
save taxes'

THE WEALTH MANAGER SAYS

"You need to separate
wealth to deal with your
concentration problem"

THE BUSINESS COACH SAYS

"Invest in hiring a GM so
you can finally step back"

THE RESULT: OWNER PARALYSIS

All great ideas individually...but with no integration into the owner's bigger future plan, the owner will NOT ACT on any of it.

WHAT IF THERE WAS A WAY TO MAKE ALL OF THIS ADVICE ACTIONABLE?

WHY INTEGRATION WORKS

Owners act when personal planning is directly connected to achieving business outcomes not when it feels like extra work.

AWARENESS ALONE
Doesn't change behavior

INTEGRATION
Drives action

LANGUAGE TO SUPPORT ENTERPRISE VALUE ACCELERATION

Why Be Prepared

When Opportunity Strikes

It's vital to be prepared. You never know when an opportunity may present itself. So often, owners are approached, and the value of the company is aggressively discounted by the potential buyer in the due diligence period because the business wasn't ready for exit. Don't put yourself in that position, and ensure you are ready to receive maximum value.

Beware of the 5 D's

You hope for opportunity and complete enjoyment in your business, but external factors can hinder your business. Potentially even for an involuntary exit at a minimal value. This can remove the freedom and legacy you're working so hard for. We refer to these external factors as the 5 D's. They are Death, Disability, Divorce, Disagreement & Distress.

Enjoy Your Business

In most situations, businesses run the owners versus the owner running the business. When you build your business to be exit ready, you do things that help increase the quality of the business. This often leads to making it easier to run and allowing you to enjoy it more as well.

Make Better Decisions

You'll undoubtedly make better decisions because you have an EXIT READY mindset with a clear vision and aligned macro goals in front of your team. When you understand your FREEDOM POINT, you know how much or little to invest at the right times for the business. If you don't commit and understand what size or scale you should build the business to, you'll find yourself creating chaos and diminishing profits as growth is expensive.

ABOUT THE
BUSINESS

This health assessment measures the 6 key areas that will help you scale your business and ultimately increase your enterprise value.

Financials	40%	Leadership	35%
The lifeline of your business		The heart of your business	
Sales	70%	Recruiting	70%
Your ability to control revenue		The quality of talent you keep	
Marketing	50%	Productivity	20%
Your predictable growth engine		Your guardrails for scale	

We want to help you propel your business beyond expectations. Below you'll find a propeller we use to measure the health of your business in the 6 key areas for scale. By understanding the gaps and opportunities in each area, you'll maximize your enterprise value. To do this, think of your business as an airplane taking flight to a destination, in this case, your vision.

Take the health scores above and imagine you board your business with a propeller that has a financial engine not strong enough to get there. That each propeller blade is a different size, not connected or working together. That the productivity casing that's holding everything together isn't strong enough. This is why your business may be hitting turbulence along the way. These same factors are what will increase your enterprise value.

Future EV derived from Owner's ALL IN desired cash flow lifestyle - With or Without the Business

A HOLISTIC WEALTH MANAGEMENT APPROACH

When the conversation is future-oriented based on hitting their freedom point years sooner, the owner's mind is open to integrated planning.

- PROTECT: Shield themselves from frivolous creditors and lawsuits.
- REDUCE TAXES: Minimize income, exit and estate taxes.
- LEVERAGE: Use the business for wealth creation.
- TRANSFER SYSTEM: create a system to manage wealth post-exit.
